

Control Tool And Equipment Theft From A Van Or Pickup Truck

- Park a van or pick up in a locked, alarmed garage every evening if possible.
- If a vehicle can't be parked in a garage, always park a vehicle in a well-lit area that can be seen from your home or park in your driveway.
- Always lock a vehicle's doors and keep windows closed even if you are away from a vehicle for a few minutes.
- Put a sticker of your security device be it a tracker or an alarm in place where potential thieves can see it.
- Some general tips on pick up tool boxes include being constructed with heavy gauge aluminum or metal, double lock system preferred and locks have an anti-drill feature.
